

STONE PRO

COLOR ENHANCER

Wet-Look Penetrating Sealer for Un-Polished Stone

StonePro **COLOR ENHANCER** brings out the natural beauty and enriches the color of unpolished natural stone surfaces leaving a matte finish wet-look.

A penetrating sealer that is UV stable will not yellow or peel, for interior and exterior use.

For Use On Un-Polished:

travertine, slate, brick, stamped concrete and decorative concrete

Available Sizes:

quart, gallon, 5 gallon & 55 gallon

Coverage:

800 - 1,000 sq. ft. per gallon

Coverage will vary based on the porosity & texture of the surface

S-ESQ, S-ESG, S-ES5G, S-ES55G

PRODUCT FEATURES:

- Enhances the color of unpolished stone and masonry surfaces
- Wet-look impregnating sealer with a matte finish
- Protects against staining
- For interior/exterior use, UV Stable

ADVANTAGES:

- NOT a topica wax, allows surface to breathe
- Long lasting
- Low odor
- Easy to apply - fast cure time

Application Instructions:

- 1) Liberally apply an even coat to surface. Sealer should be spread evenly over surface to ensure proper penetration.
 - 2) Allow sealer to penetrate the surface for 3-5 minutes.
 - 3) After 3 minutes, examine surface and reapply where surface appears dry.
 - 4) After 5 minutes, dry the surface using a dry microfiber cloth.
 - 5) Repeat as needed to achieve desired results. If 2 or more coats are applied, remove surface residue after each application.
 - 6) Avoid moisture contact with surface for 3-5 hours after application. Avoid surface traffic for 12 hours. Achieves full repellency in 24-72 hours.
-
