

STONE PRO

QUICK CLEAN

Acidic Heavy-Duty Cleaner

Highly concentrated acidic tile and grout cleaner and de-greaser. Removes stubborn dirt and grime from ceramic and porcelain tile and grout. Not for use on polished stone surfaces.

CONCENTRATED FORMULA (1 GALLON MAKES 9 GALLONS)

For Use On:

Concrete, brick, ceramic tile, porcelain tile, grout an masonry surfaces. (NOT FOR USE ON POLISHED STONE)

Dilution Ratio: Water: Quick Clean

- Lightly Soiled: 8:1
- Medium Soiled: 6:1
- Heavily Soiled: 4:1

DO NOT USE AT FULL STRENGTH

Application Instructions:

- 1) Test in an inconspicuous area.
- 2) Sweep, vacuum or wipe surface clean prior to use.
- 3) Pour into a bucket and dilute as needed.
- 4) Use acid-resistant brush and agitate the area you want to clean.
- 5) Use wet vacuum to remove residue from the surface.
- 6) Do not let product dry on surface.
- 7) Neutralize the surface with an alkaline cleaner (a neutralizing agent is necessary to dissolve any remaining acid from the surface).
