Scrubber
Machines

Hand
Tool
Polisher

PRODUCT FEATURES:

- Easy to Use 3 Step System
- Chemical Free Polishing Process
- Cost Effective
- Just Add Water

ADVANTAGES:

- High diamond concentration for fast cutting and long life
- Stiffer pad promotes a flat, sharper polish
- For use on swing machines and auto-scrubbers
- Easy-to-Use
- Longer Life

Available Sizes:
7", 16", 17", & 20"

**MADE
IN THE USA**

HOW IT WORKS

Removes Scratches and Chemical Etching
leaving a High Gloss Finish in **3** Easy Steps

STEP 1

Leaves a clean matte finish. Removes moderate to light damage, scratches, etch marks, and water marks. Smooth to the touch. Light reflectivity.

STEP 2

Leaves a satin finish. For removing light scratches, etch marks, water marks and damage. More reflectivity. Cleans and prepares surface for high polish.

STEP 3

Yields a high gloss finish. Clear reflectivity. Terrific pad for daily or weekly, cleaning and maintenance of a high gloss finish.

ALSO AVAILABLE FOR A MATTE FINISH

STEP 0 [HONE]

Leaves a natural honed finish. Ideal for maintenance on non-polished (honed) natural stone surfaces.

Directions for use:  Wet

Make sure floor is free of any debris and/or coatings. Mount the appropriate ELITE pad onto the pad driver with ELITE logo upwards towards the pad driver.

ELITE pads are designed to be used with water. Clean and rinse pads with water after each use.
